Full-Stack Developer | React.js • Next.js • Node.js • Express.js • MongoDB

OBJECTIVE

Fresh Computer Engineering graduate (2026) with 6 months of hands-on internship experience building production-grade web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Skilled in developing SaaS applications, REST APIs, OCR automation, and AI-powered solutions. Seeking a Full-Stack Developer / Software Engineer role to build impactful products and contribute to a collaborative engineering team from day one.

EDUCATION

B.Tech in Computer Engineering, Bhagwan Mahavir University, Surat 2023–2026

CGPA: 8.80 / 10

Diploma in Computer Engineering, Bhagwan Mahavir University, Surat 2020–2023

CGPA: 9.09 / 10

TECHNICAL SKILLS

Languages	JavaScript (ES6+)
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Zustand, React Query
Backend	Node.js, Express.js, REST APIs, Zod, Mongoose
Database	MongoDB, Firebase
AI & Automation	Gemini API, Groq API, OCR, AI Automation Workflows
Tools	Git, GitHub, Postman, Vercel, Netlify
Core Skills	API Development, Authentication & Authorization, State Management, Database Design, Performance Optimization

EXPERIENCE

Full-Stack Developer Intern Dec 2025 – Jun 2026
TechSonance InfoTech LLP *Surat, Gujarat (On-site)*

- Developed a GST-compliant billing and business management SaaS using Next.js, Node.js, Express.js, and MongoDB, enabling **10+ businesses** to manage invoices, inventory, and accounting records through a centralized platform.
- Designed, developed, and integrated **15+ REST APIs** powering billing, inventory, customer management, and accounting modules.
- Designed an OCR-based invoice processing workflow that extracted key invoice information and auto-populated application forms, reducing manual data entry time by **approximately 40%**.
- Built an automated WhatsApp-based order management workflow for customer order placement and status tracking.
- Optimized frontend performance using Zustand and React Query, reducing redundant API requests and improving UI responsiveness.
- Enforced data validation and schema consistency using Zod and Mongoose across **6+ modules**, reducing validation-related bugs in production.

PROJECTS

GST Billing & Business Management SaaS [Live Demo](#)

- Designed and developed a cloud-based GST billing platform enabling businesses to manage invoices, inventory, customers, and accounting from a centralized dashboard.

- Integrated OCR and AI (Gemini API + Groq API) to extract invoice information and auto-fill billing forms, reducing manual data entry by **approximately 40%**.
- Designed and implemented RESTful APIs for billing, inventory, customer, and transaction management with real-time inventory synchronization.
- **Tech Stack:** Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Zustand, OCR, Gemini API, Groq API

Skill-2-Career AI

[Live Demo](#)

- Designed and developed an AI-powered career guidance platform end-to-end as the sole developer, from architecture to deployment.
- Integrated Gemini API to provide AI-powered resume analysis, personalized career recommendations, interview preparation, and scholarship eligibility insights.
- Implemented Firebase Authentication and responsive dashboards to deliver a seamless AI-powered user experience.
- **Tech Stack:** Next.js, Firebase, Tailwind CSS, Gemini API

Alumni Connect Portal

[Live Demo](#)

- Designed and developed a frontend MVP for an alumni networking platform to demonstrate the concept during the SIH 2025 Internal Hackathon.
- Built responsive React components and user interfaces for alumni profiles, announcements, and networking workflows using mock data.
- Secured **1st Rank** among 10+ competing teams at the SIH 2025 Internal Hackathon for the project's concept, design, and user experience.
- **Tech Stack:** React.js, Vite, Tailwind CSS

CERTIFICATIONS

Introduction to Agent Skills — Anthropic (2026)

SAP Code Unnati: Advanced Course in Emerging Technologies — Edunet Foundation (2025)

McKinsey Forward Program — McKinsey & Company (2025)

React JS — Infosys Springboard (2022)

Design Thinking Workshop: Unlocking Creative Solutions for Entrepreneurship — Bhagwan Mahavir University (2024)

Drone Application: Precision Farming — Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat (2024)

ACHIEVEMENTS

Diploma Gold Medalist in Computer Engineering.

Awarded **1st Rank** at the SIH 2025 Internal Hackathon for developing the Alumni Connect Portal.

Finalist at CMR HACKFEST 2.0, a 36-hour National-Level Hackathon organized by CMR College of Engineering & Technology, Hyderabad.

LEADERSHIP & ACTIVITIES

Founder & Co-Leader, Student Developer Club (SDC), Bhagwan Mahavir University.

Organized the SIH Internal Hackathon 2024, coordinating participants, mentors, and event operations.

Conducted technical workshops and mentored students in web development and modern technologies.
