OBJECTIVE

Full-Stack Developer with hands-on experience building web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Developed production-ready SaaS solutions, including GST billing and business management platforms, OCR-driven automation workflows, and AI-powered applications. Passionate about building scalable products, solving real-world problems, and contributing as a Software Engineer while continuing to grow in full-stack development and AI technologies.

EDUCATION

B.Tech in Computer Engineering , Bhagwan Mahavir University, Surat CGPA: 8.80	2023–2026
Diploma in Computer Engineering , Bhagwan Mahavir University, Surat CGPA: 9.09	2020–2023

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Zustand, React Query
Backend	Node.js, Express.js, RESTful APIs, Zod, Mongoose
Database	MongoDB, Firebase
Tools & Platforms	Git, GitHub, Vercel, Netlify
AI & Automation	Gemini API Integration, OCR Pipelines, AI Automation Workflows
Soft Skills	Problem Solving, Critical Thinking, Leadership, Team Collaboration

EXPERIENCE

Full Stack Developer Intern TechSonance InfoTech LLP	Dec 2025 – Jun 2026 <i>Surat, Gujarat (On-site)</i>
- Developed a GST-compliant billing and business management SaaS using Next.js, Node.js, Express.js, and MongoDB, enabling businesses to manage invoices, inventory, and accounting records through a centralized platform. - Built and integrated RESTful APIs for billing, inventory, customer, and transaction management modules, ensuring efficient communication between frontend and backend systems. - Designed an OCR-based invoice processing workflow that extracted key invoice information and automatically populated application forms, reducing manual data entry effort. - Developed a WhatsApp-based sales ordering system that automated customer order collection and status updates, improving operational efficiency for business users. - Implemented frontend state management using Zustand and React Query, improving data synchronization, caching, and overall application performance. - Enforced data validation and schema consistency using Zod and Mongoose, improving data reliability and reducing validation-related issues across modules.	

PROJECTS

GST Billing & Business Management SaaS	Live Demo
- Developed a cloud-based billing and business management platform supporting GST invoicing, inventory tracking, customer management, and accounting records. - Built an AI-assisted OCR workflow using OCR processing, Gemini API, and Groq API to extract invoice details and automatically populate billing forms, reducing manual data entry effort. - Developed RESTful APIs and integrated frontend-backend workflows for invoice generation, inventory updates, and transaction management.	

- **Tech Stack:** Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Zustand, OCR, Gemini API, Groq API

Skill-2-Career AI

[Live Demo](#)

- Designed and developed an AI-powered career guidance platform as the sole developer, managing the complete lifecycle from development to deployment.
- Integrated Gemini API to provide resume analysis, career recommendations, interview preparation, scholarship eligibility checks, and personalized career insights.
- Built secure authentication, responsive dashboards, and AI-driven user workflows for a seamless user experience.
- **Tech Stack:** Next.js, Firebase, Tailwind CSS, Gemini API

Alumni Connect Portal

[Live Demo](#)

- Developed a web platform that enables students and alumni to connect, build professional networks, and share career opportunities within the university community.
- Implemented features for user profiles, alumni directory, announcements, and community engagement, improving interaction between students and graduates.
- Secured 1st Rank at SIH 2025 Internal Hackathon for presenting the solution among competing student teams.
- **Tech Stack:** React.js, Vite, Tailwind CSS

CERTIFICATIONS

McKinsey Forward Program — McKinsey & Company (2025)

Introduction to Agentic AI — Anthropic (2026)

SAP Code Unnati: Emerging Technologies — Edunet Foundation (2025)

Unlocking Creative Solutions for Entrepreneurship: A Design Thinking Workshop — Bhagwan Mahavir University (2024)

Drone Application: Precision Farming — Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat (2024)

React.js Certification — Infosys Springboard (2022)

ACHIEVEMENTS

Diploma Gold Medalist in Computer Engineering.

1st Rank — SIH 2025 Internal Hackathon for Alumni Connect Portal.

Selected for multiple state-level hackathons and innovation competitions.

LEADERSHIP & ACTIVITIES

Founder & Co-Leader, Student Developer Club (SDC), Bhagwan Mahavir University.

Organized SIH Internal Hackathon 2024, coordinating participants, mentors, and event activities.

Conducted technical workshops and mentored students on web development and emerging technologies.
